### STATION 6 LIEUTENANT'S REPORT

#### Maintenance:

Old-

Well Project – Underway. Water problems have run through Alex. Plans are in place if project takes longer than

expected with filling the holding tank from mobile water supply companies. Drinking water purchased to have on-hand in case of short notice shutdowns.

Station Beds/Blinds – Working with Tony, beds on-order and blind will cost approx. \$5000 to replace in all dorms, when on-sale. I have been advised by Home Depot that sales occur frequently. Once approved to purchase, I will contact Home Depot and make the purchase.

Station Desk Chairs – Heidi ordered 1 for trial and the reviews from the RRV’s were not great. Working with Heidi to possible explore further options.

Exterior Landscaping – Tony advised this would more than likely be hired out.

New-

Station Alerting System – Red lights stopped activating when station tones triggered. This was passed along to BC Loomis and Day Wireless is working on the issue, as of 7/30. Tones are still working and BC Loomis has issued pagers to the station as a back-up alerting device.

Station Internet – Had discussion with Heidi that was prompted by the internet speed boost done to the City Server Connection and whether not the house side could be boosted as well or if ethernet connection would be a possibility in the dorms. Unsure of ability or cost of this and was asking if it could be investigated. Currently with several people in online classes and having up to 12 full time residents, bogging down the Wifi is a common occurrence.
